

High Pointe Patio Door

Features & Benefits

- *Solid color-through virgin vinyl maintains a natural appearance and will not chip, peel, corrode, rot or requires painting or scraping.*
- *Multi-Chambered I-Beam structural 6" frame provides DP50 strength and rigidity while offering the most adaptability for all installation methods.*
- *Modern fusion-welded beveled frame head and panels combines excellent energy efficiency and beautiful aesthetic appeal.*
- *Custom-designed sloped sill with high sill dam and internal water management channels weep water away from your home.*
- *Integrated interlock system eliminates drafts and provides secure protection unwanted elements. Dual weatherstripping at the meeting rail supplements the design, providing the ultimate protection against air infiltration.*
- *12 gauge steel reinforcement of vertical members ensures structural integrity.*
- *Invisible panel retainer system blends the door to your interior.*
- *All stainless steel hardware resists corrosion, even in high moisture coastal areas*
- *Self-leveling sealed bearing roller system is whisper-quiet and butter smooth.*
- *Die Cast weather resistant handle set in several decorator finishes features a mortised mutlipoint lock with key.*
- *Integrated anti-slam mechanism eliminates accidental hardware damage.*
- *Ample weatherstipping consists of synthetic wool pile with mylar fin strip that guards against air and water leakage.*
- *Double paned IntelliGlass tempered Low E glass enhances energy performance, insulation and reduces sound transmission.*
- *PPG's Intercept Warm Edge spacer system's structural design gives the best combination of energy efficiency and longevity, virtually eliminating condensation and seal failures.*
- *Heavy Duty extruded locking screen door stands up to even the heaviest traffic.*
- *Patented UltraVue™ screen mesh increases airflow and improves insect protection by utilizing a smaller mesh opening and thinner fibers than standard screens. This allows*

25% more light, and fresh breezes to flow through while protecting against insects of every size.
