SOLID INVESTMENT

What the Best Homes are Wearing[®]

MAINTENANCE

When you buy a home, you're buying, or perhaps building, your dream. Make the most of that investment with the personalized look and proven protection of American Comfort® vinyl siding by NAPCO®. Backed by our Limited Lifetime Transferable Warranty, it's a smart way to add beauty and value to your home for years to come.

What the Best Homes are Wearing®

WHY

- .040" thick, impact-resistant panels
- Scratch-resistant finish
- 1/2" panel projection for maximum rigidity and straighter application
- Available in D4", D5" and T3" Traditional Lap or D4.5" Dutch Lap
- Limited Lifetime Transferable Warranty

NAPCO® VINYL SIDING HAS BEEN GREEN APPROVED BY THE NAHB RESEARCH CENTER. This means you can be assured that this product complies with specific green practice criteria in the National Green Building Standard. Visit www.GreenApprovedProducts.com for more details.

Toss the brush, scraper and ladder.

Love the look of wood siding but not the hassle of peeling, cracking, flaking paint, or rotting wood? With American Comfort vinyl siding, you'll enjoy the appearance of freshly-painted wood without the associated maintenance. Best of all, it's from NAPCO, a leading manufacturer of high quality vinyl siding and exterior design products for over 40 years. With American Comfort vinyl siding, you can enjoy your virtually maintenance-free exterior—and leave the painting to your neighbors.

Great looks, tough-as-nails construction.

American Comfort vinyl siding provides the look of real wood, but with far superior wear. A variety of profiles, all with a 1/2" panel projection, offer the classic look of real wood siding. American Comfort vinyl siding boasts excellent color retention, thanks to our unique color extrusion technology. The construction is equally impressive: Each panel is .040" thick, so it will stand up to harsh weather and a variety of impacts.*

ASSURE

Look storms in the eye, and smile.

Whatever weather conditions come your way, your American Comfort® vinyl siding by NAPCO® will help keep your home safe and secure. Lab and outdoor testing in excessive heat and cold assures a great performance season after season. And rigid, sturdy construction helps it endure even high-velocity winds. All so your home can withstand just about anything the weather forecaster sends your way.

Relax: American Comfort vinyl siding is virtually maintenance-free and worry free.

13 ways to tempt your inner designer.

The American Comfort vinyl siding color selection is all about options. Each color has an attractive low-luster finish designed to highlight the natural woodgrain appearance for that freshly painted look. The color is engineered to last, thanks to our scratch-resistant, color-through technology. Color is uniform from panel to panel and has been quality tested to assure it will stay that way for years.

**NAPCO® Products
are Earth friendly**

NAPCO® vinyl and metal exterior products can help you meet your sustainable building goals and earn points in leading green building certification programs. NAPCO® strives to contribute to sustainable building practices, improved energy efficiency, or lifecycle benefits of homes as our contribution to the Ply Gem Enviro initiative.

SUSTAINABLE RESOURCES:

- NAPCO® vinyl siding is manufactured from abundant natural resources.
- Vinyl siding generates less construction site waste than cardboard packaging, brick, or lumber.
- Ply Gem facilities reuse and recycle production scraps, pallets, and packaging material, reducing raw material needs and landfill use.

ENERGY EFFICIENCY:

- Vinyl siding requires less energy to manufacture per square foot than brick and mortar.¹
- Due to lighter weight, vinyl siding requires less fuel to transport than other cladding options.
- NAPCO® American Essence™ Premium Insulated Vinyl Siding adds additional insulation to exterior walls, increasing the overall wall system R-Value by up to 25%.

LIFECYCLE BENEFITS OF HOMES:

- NAPCO® vinyl siding is durable and requires no site finish.
- When installed properly and under normal use, our products should never require painting or staining. They won't crack, peel, blister, or rot.
